

**Printing Instructions:**

Print this PDF onto lightweight **8.5"x11"** paper. Set the page scaling in your printer settings to **100%** to ensure the pieces will print at the correct size.

With the **nap** running down the fabric from **top to bottom**, use chalk or fabric marking pencil to trace the pattern onto the back of the faux fur fabric.

Use a **sharp craft blade** to cut through the woven back of the fabric, without cutting through the length of the fur.

Fold the piece in half with right (fur) sides together, matching the curved top edges.

Hand-sew the curved edge together using a **1mm-2mm blanket stitch**.

Turn right side out and style the 'hair'.
